

MPATC - Resume Worksheet

Your resume is an important marketing tool used to get a potential employer's attention and to help you get an interview. Use your resume to show what sets you apart from the rest of the applicants.

- ❖ If you already have a resume saved on a disk or flash drive, please bring it with you to the lab - **Otherwise, you will need to create a new resume.**
- ❖ If you created a resume at MPATC last year, we may have an electronic copy on file.
- ❖ **Remember to bring your MPATC computer password with you. You must have this information in order to log on.**

Resume Tips

- ❖ Keep it brief—maximum two pages.
- ❖ Proofread several times. Don't just rely on spell check! Ask a friend or classmate to proofread your resume. One typo can send your resume to the trash.
- ❖ Make it easy to read. Use at least 11 point font, black ink on white or grey paper. No fancy fonts, colored paper or ink.
- ❖ Organize your information with bullet points, not paragraphs, and leave enough white space so your resume looks clean and visually interesting
- ❖ Always include a cover letter with your resume.
- ❖ Ask permission from a person before you use them as a reference.

Personal Information

Your Full, Legal Name:	
Address, City, State & Zip Code:	
Phone #: (include area code)
