

# GI-TEC & MY104.3 WCZY/AM830 WMMI STUDENT OF THE MONTH

In partnership with **My104.3**, the Student of the Month program allows us to recognize the achievements of some of our most deserving Career Technical students.

GI-TEC instructors consider their student nominees based on these criteria: **responsibility, character, citizenship, leadership, work ethic, and commitment to improve technical skills.**

Recipients are chosen by My104.3 listeners through online voting. Winners are recognized on air throughout the month and they are also given a great prize package--all donated by generous local employers.

Our **October 2017** recipient is Mt Pleasant High School senior, Jenna Harnick, nominated by her Health Science instructor, Mrs. Lisa Gatti.

## Comments from Mrs. Gatti:

Jenna is a 2<sup>nd</sup> year Health Science student. Last year, she completed the Certified Nurse Assistant program, and this year she will tackle the Health Science Careers program. Jenna has been active at school throughout her years at MPHS. She has been involved in school theater productions and Health Occupations Students of America (HOSA), where she competed at the regional and state levels. Last year, she was a pivotal fundraiser to help her fellow HOSA members contain cost of traveling to and from competitions. She has now taken on a leadership role in HOSA as a member of the executive board. Jenna is also a figure skater and spends many hours skating.

What is most notable about Jenna is her positive attitude and work ethic. She is kind and friendly to all students and she volunteers to help when she sees a need. I trust her with any task or job. Over the summer, Jenna worked at a summer camp for kids and is currently working part-time at a greenhouse, where she has worked for 2 years. Jenna is capable, reliable, and trustworthy.

I am proud to know Jenna and am excited to see what her future holds.
