

In partnership with My104.3 the Student of the Month program recognizes some of our most deserving students.

GI-TEC instructors nominate students based on character, leadership, work ethic, commitment, citizenship and responsibility.

Winners are chosen by My104.3 listeners through online voting. Winners are given a generous prize package from some of our GREAT local employers.

# Kelsey Seymour GI-TEC STUDENT OF THE MONTH

Kelsey is a student that has been working hard to follow her career pathway in accounting. She has taken accounting at GI-TEC every trimester of her high school career. Kelsey has a natural ability in the accounting area. In the classroom she works hard to understand the concepts at a deeper level. In my 17 years of teaching I have never had a student work as hard as Kelsey has for me over the last few years. When Kelsey decides to do something she puts her heart into it. Kelsey is the only student I have had that has completed the entire high school curriculum by the end of her junior year. Kelsey is often self-taught with the chapters and problems she faces as she is independent of the other students in class. Often times I look over and can see her working hard to problem-solve whatever she is working on. Kelsey was inducted this year as a junior into the National Technical Honor Society. Next year she will be focusing on Managerial Accounting and College Accounting concepts. Kelsey is quiet but a strong leader. Whenever someone next to her is struggling she is always willing to help them. Next year will be fun to watch how she shines as a senior and what her plans will be after graduation.
