

# GI-TEC & MY104.3 WCZY/AM830 WMMI STUDENT OF THE MONTH

It's that time of year again! The **Gratiot-Isabella Technical Education Center (GI-TEC)**, Mt. Pleasant Campus, and **My104.3** will once again be recognizing some of our finest Career Technical students throughout the school year.

CTE instructors nominate their students based on seven criteria: **responsibility, trustworthiness, exceptional character, good citizenship, initiative and leadership in the classroom, commendable work ethic, and commitment to improve the technical skills needed to succeed in their Career Technical program.**

The selection committee at My104.3 chooses recipients and repeats the announcement on air throughout the month. They also provide winners with a wonderful prize package consisting of several gift cards and a beautiful commemorative plaque--all courtesy of area businesses.

Our **October 2016** recipient is **Beal City High School** senior, **Tyrel Hoover**, nominated by his **Construction Trades** instructor, **Mr. Jason McCrimmon**.

## Comments from Mr. McCrimmon:

"While here in my Construction Trades program, Tyrel demonstrates leadership in being a positive role model to other students. He works very hard going the extra mile to understand and help out other students.

"The ability to maintain an "A" in my class while participating in sports, as well as the competitions we do with our Construction Trades students, would make Tyrel an outstanding asset to any company where he is employed.

"Soon, he will also sign up as a member of the HBA (Home Builders Association - Mt. Pleasant student chapter) and will attend meetings with me. I would highly recommend him for a position at a construction company, as he has exceptional employability skills because of both his hard work ethic and intellectual ability.

"Tyrel goes above and beyond in my classroom and for that I recommend him for our Student of the Month here at GI-TEC."
